

ANOTHER INDUSTRY FOR SOUTH SAN FRANCISCO EMPLOYS AT THE START SEVENTY-FIVE MEN Work on New Plant Already Begins

In the midst of the big things now happening in South San Francisco the lesser manufacturer is not being overlooked.

General Manager Martin closed for the Land Company a deal with the California Iron Yards Company for a site of four acres at the foot of Maple and Spruce avenues on the Baden railroad spur. Work has already commenced on the new plant.

Mr. William H. McDaniel, president of this new industry, announces that seventy-five men will be employed in his plant at the start. That for the present, on account of the unusual demand for steel, the plant will be chiefly engaged in handling and salvaging scrap on a large scale, but as soon as conditions become more settled they will build large mills and foundries which will give employment to several hundred men.

The California Iron Yards Company is a strong company financially and its advent in our midst is another chapter in the record of South San Francisco's industrial progress, one that we can well be proud of.

Mr. McDaniel stated to The Enterprise that one of the deterring features in his negotiations for a South San Francisco location was the lack of houses for his employees. That he recognized the overwhelming demand now confronting this community in this feature by reason of the 2500 new employees of the shipyards, the 500 new employees for the Moran company and a great many hundreds of new employees soon he was satisfied would be added to the steel company, and he didn't have the heart to add to the overwhelming burden now taxing to the limit this community, so he had decided to back the home-building feature of his own men himself.

SOUTH CITY INDUSTRIES WILL BE FEATURED AT BIG LAND SHOW

Every day of the sixteen days of the California Land Show, which will be held in San Francisco October 13th to 28th, inclusive, will be a gala event. Special celebrations are being planned and the committees have arranged the matter so comprehensively that every section of the state, every product and every industry will be given special recognition.

South San Francisco's industries will make a formidable showing. The local exhibit will be especially worth seeing.

The region in the vicinity of the "north of the bay counties" will have a special time set apart for it, when all attention will be paid its events; following this will be the coast section, then the Sacramento valley, San Joaquin valley, the Northern California section and the Southern California region.

Prune growers from all over the state are to have a special day of their own, and he who hesitates as to the quality and adaptability of the California product will find everything to convince him of how superior that fruit is as a delicacy, a food and a health insurance. Prunes will be distributed, cooked and uncooked, and special recipes are to be provided for their use.

Raisin day will likewise enjoy great distinction, and this will truly be a feast for all who visit the Land Show on that particular occasion.

Apples, the winey, sparkling, ultra-flavored fruit, the pride of various regions, will clamor for favor. Despite the high market price of apples, the orchard owners promise their co-operation and a generous free distribution of the fruit.

Rice—the California variety, now looked on as superior to the imported product—will be made a special feature of one of the events; so will

citrus fruits and walnuts and the vineyards.

Besides all of these there will be industrial celebrations, when the manufacturers will be given special attention and the entire program will be arranged so as to mingle sectional, industrial and product events to the best advantage for the visitor and exhibitor.

The construction work on the big block of land at Market street, bounded by Eighth and Mission, is progressing rapidly, a night and day corps of men working continuously. One month of continuous work, according to Edward H. Brown, general manager of the Land Show, under whose personal direction the construction is progressing, will be necessary to complete the undertaking and to have it ready for the counties to install their exhibits.

When the seven main tents, which will house the big show, are put up over the square block of land, two lecture halls on the east wing will be built. On the completion of these, the work of wiring the interior for the 5700 electric lights to be utilized in the novel illumination of the Land Show will be begun and simultaneously hundreds of tons of redwood bark and boughs will be put into place for the sequoia forest in the midst of a city.

Special departments for the comfort and convenience of the visitors are now being designed, and each is planned as a motif in the great rustic picture the ensemble will present. There will be a creche where mothers may leave their little ones in the charge of competent trained nurses. A reading room and dressing rooms and writing rooms are to be provided. There will be automatic lockers—an innovation—where the visitor may escape the nuisance of parcels and wraps and yet leave them in places of absolute safety without time limits on them. Messenger service, telephone, telegraph and postoffices will all be installed and a parcel post station will add comfort as well as enlightenment.

MONEY FOR HIGH SCHOOL

Edward Hyatt, state superintendent of schools, has announced the first semi-annual apportionment of state money for high schools. San Mateo county high schools are credited with the following:

Halfmoon Bay	\$ 788.80
San Mateo	2,181.20
San Mateo Evening	836.00
Sequoia (Redwood City)	1,201.80
South San Francisco	812.40

The unapportioned county fund of San Mateo county for reapportionment to the elementary schools is \$32,250, the number of teachers in attendance being 149.

BARN FIRE THREATENS ENTIRE BLOCK OF HOUSES

The rear of the Carmody barn was the scene of a fire Thursday, when bales of hay suddenly burst into flames. The prompt and efficient work of the fire department held the loss down to \$150.

Because of the many wooden houses in the vicinity and a prevailing high wind, an entire block was in jeopardy at one time.

PROCEEDINGS OF THE CITY BOARD OF TRUSTEES

Regular adjourned meeting of the Board of Trustees of the City of South San Francisco was held Tuesday, September 11, 1917.

This meeting was called to order at 8 o'clock p. m. by J. H. Kelley, president of the board.

Roll call found the following trustees present, to-wit: F. A. Cunningham, G. W. Holston, George H. Wallace and J. H. Kelley. Absent, Trustee M. F. Healy.

A communication was received from Governor Stephens, urging the necessity of enforcing all laws against prostitution.

A communication was received from the California Automobile Association, calling attention to the bad condition of the crossing at Linden avenue, near the Prest-O-Lite Company, as complained of by W. E. Hyman.

The reports of the city officers for the month of August were then read. The report of the city clerk showed the following balances: General fund, \$334.85; sinking fund, \$1292.92; weed fund, \$190.3; city hall fund, \$1667.53; sewer fund, \$1098.74; street bonds series A, \$4112; street bonds series B, \$28.24.

The report of the city treasurer checked with that of the city clerk.

The report of the city recorder showed that the sum of \$105 had been collected through his office during the month of August, for which he enclosed check.

Moved by Trustee Wallace, seconded by Trustee Cunningham, that C. H. Woodman, chief of the fire department, be given an increase of \$15 per month in salary, commencing October 1, 1917.

The board adjourned at 10:15 p. m.

RECRUITS WANTED AT TANFORAN PARK CAMP

Wanted—A real live bear cub as mascot for the "Grizzlies."

That cry has sounded from the Mexican border to the Canadian Rockies. Yet the "Grizzlies" are still without a mascot.

Colonel Duff Stewart of the British recruiting commission promised the officers that he would capture one in the Canadian wilds and send it here.

That was two weeks ago, when General W. A. Whitehead of that commission reviewed the regiment here. Since then, nothing has been heard of Colonel Stewart and the "Grizzlies" officers are wondering if the bear got Colonel Stewart, or if civilization has driven all bears out of Canada.

Captain P. B. Kyne suggests that it is too early to doubt the genuineness of Colonel Stewart's promise, and that it is possible the bear was sent, but became homesick on the way.

Meanwhile, it has been suggested to several San Francisco clubs that to present the "Grizzlies" with a mascot would be a very graceful act of patriotism.

This week the regiment had a hard time getting paid and going through a strenuous program, which included mounted and dismounted drill, guard duty, semaphore signalling, cannoneering instruction and physical drills from 7:30 a. m. until 5 p. m.

The officers took another jaunt over the hills, while Sergeant Major August Krantz took the selected non-commissioned officers through the battery commanders' detail field maneuvers.

THE WOMAN'S CLUB.

The Woman's Club will meet Thursday, September 20th, at 2:30 p. m., in Lodge Hall. At this meeting will take place the annual election of officers. Members please make an effort to be present.

Robert Wilson, brother of Gordon Wilson, spent an enjoyable day here Sunday as the guest of Dave Martin at the residence of Mr. and Mrs. W. J. Martin.

Miss Adele Kleemeyer of Fresno was visiting her brother, Mr. Kleemeyer, on Wednesday.

Mrs. Tose entertained the sewing circle on Thursday afternoon.

Rev. W. T. Miller entertained some young folks at the church parlor on Friday evening.

Don't forget the card party to be given by the ladies of All Souls' Church, Thursday evening, September 20th, in the parish hall.

Mr. Jack O'Connor left Sunday for Watsonville, where he will spend ten days on his ranch.

Mrs. George L. Perham and daughter, Ina, formerly of this city, have been visiting Mrs. Clifford and daughter, Rue, of this city. Mrs. Perham left for New York City Monday, where her daughter will enter the art school.

Mrs. W. L. Hickey spent the week-end in San Rafael.

Mr. and Mrs. R. De Luca and friends motored to Alum Rock Saturday.

Miss Wilma Neville has returned home from her week's vacation in Sacramento.

Mr. Newell Stearns spent the week-end at Woodside.

Miss M. Heath and Miss Marguerite Schmidt spent the week-end in Sacramento.

Mr. Martin Hyland was a visitor in this city on Wednesday evening.

Dr. J. C. McGovern and family motored to La Honda Sunday.

Trustee M. F. Healy, who has been ill, is improving.

Mr. and Mrs. S. Wynn and family spent the week-end visiting friends in Petaluma.

Mrs. Steve Nyland spent Tuesday in San Francisco on business.

Mr. and Mrs. William Olds were visitors at the Presidio Sunday. Miss Opal Davis spent Sunday in La Honda.

Stick of Candy Sweaters Are the Thing

WOMEN may be willing to do their bit in the garden, but they insist upon having becoming clothes for the work. At least Gail Kane, the movie star, did when she donned this old rose and white striped silk sweater and Panama garden hat set off with its jaunty tassel.

Washable silk frocks are another novelty of the season. They, like the gingham frocks, are very practical for country wear. Some of them are made of silk in very fine checks, in rose and white, blue and white and green and

white. These frocks are sometimes in two pieces, rather like the old shirt waist suits, but they are more often of the regulation one piece type. There are also washable silk frocks in plain browns in all the lovely colors that we seem to have despite the war.

The white serge frock has proved very popular at the seashore this summer.

Yellow is the smartest of colors this season.

ANNA MAY.

WIDOW IS MOTHER OF FIVE SOLDIERS AND SAILOR BOY

Mrs. Mary J. Wyman, widow of William Wyman, Redwood City farmer, can truly be called a "mother of soldiers."

Six of her sons were in the service of Uncle Sam until a few days ago. Now there are five under the colors; for David, aged 34, her oldest living boy, has returned home, after being discharged for physical disabilities as a member of the First Cavalry, stationed at Nogales, Ariz.

As another son, Charles, 29, is about to be drafted with San Mateo's quota to the national army, Mrs. Wyman will again have the distinction of giving six sons to defend her country.

In a tiny house, within a stone's throw of Five Points, Redwood City, where the state highway and four other roads meet, Mrs. Wyman resides. Although she has been an invalid for years, and barely able to walk, this "mother of soldiers" is a really-and-truly optimist. She said recently:

"I never worry about my boys. They are better off in the army and navy than in ordinary life. I prefer them in the service, with the chance of being heroes, than having them at home as cowards."

Mrs. Wyman is a Native Daughter. She was born on the Peninsula, and has resided in Redwood City since 1891. She is a descendant of a Spanish family who were among California's first settlers.

She is the mother of thirteen children, nine of them living.

Mr. John Bowler returned home on Saturday from a week's vacation in Los Angeles.

Mr. and Mrs. Daniel McSweeney and son, Lloyd, motored to La Honda Sunday.

Miss Della Belloni was visiting friends in San Rafael on Sunday.

Mr. Art Steele, one of our local boys, who is employed at the local steel works, filed for industrial exemption, and was exempted by the United States government.

Miss Rue Clifford was the guest of Mrs. Blazer at a luncheon held on Angel Island Saturday.

A World Picture Brady-Made
ROBERT WARWICK
in
"Friday the 13th"

Robert Warwick is popular. There has never been much question as to his popularity in this country but it remained for Australia to elect him the most popular of all movie people, whether actors or actresses. There he far outclassed even Mary Pickford, who came in second, and had twice as many votes as the second leading male star. In this country, however, his picture adorns many a silver frame. In "The Flash of an Emerald," "Sudden Riches" and "The Man of the Hour," Mr. Warwick built himself a niche in the heart of photoplay "fans," and his more recent productions have added to his already large following of friends. His next appearance in this city will be as the hero in "Friday, the Thirteenth," the Thomas W. Lawson story which has been made into a World picture by William A. Brady and Director Emile Chautard. It will be the attraction at the Royal Theatre on Tuesday, September 18, 1917.

United States Least in Debt

The national debts of the allies range from \$27 to \$160 for each inhabitant, while that of the United States is only \$11.

In view of the fact that a new liberty loan is among the probabilities of the near future, these figures have significance. They teach us that our Uncle Samuel is really rich, a plutocrat, in fact; and not only that, but that he has no poor kin. His children, too, are prosperous and out of debt.

In fact, many of our brothers and cousins are really Croesuses. They have been protected and encouraged in the pleasant pursuit of the dollar until their coffers are full to overflowing. Uncle Sam has been to them a most indulgent guardian. He has smiled as they piled up their dollars, asking only that they contribute to his modest needs, and allowing them to keep the lion's share.

The ancient Hebrew gave the title of his increase to the God who prospered the labors of his hands and granted the increase of his herds and his fields. And he thought himself not at all ill-used at that.

But remember that the Hebrew gave "as the Lord had prospered him." Are Americans going to do as well?

Are the representatives of Big Business ready to give as they have been prospered? Where they have amassed in millions, will they give in proportion? Special stress was made on the effort to make the last loan a "popular" loan. Those whom the "Lord had prospered" were not importuned.

The next loan is up to the Midases, the Croesuses, the favored sons of an indulgent parent. Will they rise to the occasion and prove that their wealth is in worthy hands?

Big Business, it is up to you. Of what mettle are you made.

"Carry It Home"

In the effort at nation-wide economy, no one move will have greater effect, provided it be systematically and universally practiced, than the move to eliminate the expense of special delivery of commodities, that has grown to such enormous proportions in this country.

For many years now the custom has been growing with the growth of the telephone service, until in almost any part of the country if the lady of the house wants a paper of pins or the man of the house needs a thrasher or an auto, a telephone call brings one to the door as readily and promptly as the other.

This is peculiarly a modern practice. Our forefathers carried or hauled home their purchases. We, under the spur of necessity, can and should do likewise.

There are two angles to the proposed reform that should appeal to the public. First, the direct saving to the purchaser. This, in the aggregate, is bound to be enormous, as the expense of delivery throughout the country has grown to huge proportions. Second, the releasing for other and more needed service the immense capital and equipment now tied up in the special delivery of merchandise. Thousands upon thousands of horses, wagons, autos, trucks—to say nothing of the men and boys—are now engaged in this work, which is to a large extent entirely superfluous. There is a vital need in other channels for all of this force, and it should be released and made available where it is so badly needed.

Among the economic reforms none is more important. Get the "Carry It Home" spirit. YOU will profit by it, the DEALER will profit by it, and the country at large will be the greatest gainer of all, as it will eliminate one of the most wasteful of all practices.

People who read ads are looking for something they want to buy. The wise merchant meets them half way by seeing that HIS ad is there to be seen.

We protest, however, that the proposition to conserve used tin cans isn't fair to the goat.

America Went Into War Because Her Life Was at Stake

By L. R. WILFLEY, Ex-Judge of the United States Court in China

WE are at war with Germany because our independent existence as a nation is at stake. We are at war for the reason that if the French republic and the British empire are brought down probably we will be forced to pay an indemnity of \$25,000,000,000, which would involve our paying tribute to Germany for a generation at least and result in MAKING THAT NATION THE MOST COLOSSAL EMPIRE THE WORLD HAS KNOWN.

It is Germany's purpose, if her publicists are to be believed, to make us foot the bills of this war if she can. It is certain that should France and England be slain and Europe Prussianized our fate would be sealed.

WE ARE FIGHTING TO GUARANTEE FOREVER OUR RIGHT TO EXERCISE FREE AND ABSOLUTE SOVEREIGNTY OVER OUR OWN LAND—UNRESTRICTED, UNHAMPERED AND UNPRESCRIBED BY ANY FOREIGN POWER.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine. Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces, expelling the poison from the blood and healing the diseased portions. After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. CAMP FREMONT WORK
NOW ORDERED RUSHED

Orders to proceed at once with what construction is necessary to complete the work at Camp Fremont were received here this week from Washington by Lieutenant-Colonel W. G. Fleishhauer, construction quartermaster. Fleishhauer was also ordered to remain here until further notice, previous orders transferring him to Chillicothe, Ohio, having been countermanded.

Forces are being reorganized to handle the work of construction, and actual building will be under way no later than Monday.

Detailed orders as to just how far the construction should proceed are forthcoming. However, it is understood that all work under way will be completed as contracted with the Lindgren Company, which firm is willing to renew the original contract recently canceled during the sewer controversy.

PLANS REVISED.

Since the original contract was made a number of changes were effected, and until further orders are received there exists a doubt as to just what course to adopt in completing the camp.

The order of completion carries with it the stationing of additional troops here, according to the opinion of military experts. There are but two companies stationed here at the present time, which is not considered sufficient. There are plenty of Coast Artillery troops in San Francisco, and it is probable that some of them will

be sent to Camp Fremont within the next day or so.

The belief prevails among the military authorities that the promised division will soon become a reality, and that fully 40,000 soldiers will be stationed here shortly.

THIRTY-DAY WORK.

But for the order of the War Department, which canceled the contract with the Lindgren Company the work, as originally planned, could have been completed within ten days of that time. It will probably take about thirty days now to finish the camp. This does not include the proposed base hospital and other improvements which are expected to be made gradually.

As the situation stands, Lieutenant-Colonel Fleishhauer has received no word officially that the Lindgren Company was ready to resume its contract. That the company is eager to complete its work is accepted as a fact.

Most of the materials needed are on the grounds, and about 1500 artisans will be required to complete the camp and install the sewer system.

RESOLUTION OF INTENTION.
No. 30.

A Resolution of the Board of Trustees of the City of South San Francisco Declaring Its Intention to Improve Butler Road and San Bruno Road.

Whereas public interest and convenience require that the work and improvement hereinafter described should be done; and

Whereas in the opinion of the Board of Trustees of the City of South San Francisco said contemplated work and improvement is, and is hereby declared to be of more than local or ordinary public benefit; now, therefore, resolved by the Board of Trustees of the City of South San Francisco, that it is the intention of said Board to order the following work and improvement to be done in said City, to-wit:

The construction of cement concrete sidewalks, cement concrete curbs and cement concrete gutters on the easterly side of San Bruno Road from the northerly line of Armour Avenue to the northerly boundary line of said City of South San Francisco, including all street intersections, and on Butler Road, on both sides thereof, from the easterly side of San Bruno Road to a line parallel to the easterly line of the right of way of the Southern Pacific Railroad Company and at a distance of twenty (20) feet westerly from the westerly line of said right of way.

The construction of one Twenty-four (24) inch corrugated iron culvert at the place shown upon the plans hereinafter mentioned; the construction of one Thirty-six (36) inch corrugated iron culvert at the place shown upon the plans hereinafter mentioned;

Grading for the proper preparation of the sub-grade for said cement concrete sidewalks, cement concrete curbs and cement concrete gutters and for said corrugated iron culverts.

All work herein provided for shall be done to official grade and in accordance with the special plans and specifications for said work, which said plans and specifications are entitled "Plans and specifications for the construction of street improvement work on a portion of San Bruno Road and on Butler Road in the City of South San Francisco, County of San Mateo, State of California," which plans and specifications were heretofore adopted by said Board of Trustees on the 11th day of September, 1917, and are now on file in the office of the City Clerk and to which plans and specifications reference is hereby made for a further description of said work and for the location and extent of the work to be done hereunder, and for a particular description of the boundaries of the district hereinafter mentioned. There is excepted, however, from the above mentioned any and all such work as has been already done to official grade.

And said Board of Trustees does hereby determine and declare that said proposed work and improvement is more than of local or ordinary public benefit and will affect and benefit the lands and district hereinafter described, which said district is hereby declared to be the district benefited by said work and improvement and that therefore the entire costs and expenses of said work and improvement shall be and is hereby made chargeable against and shall be assessed upon said lands and district, which district is within said City of South San Francisco, County of San Mateo, State of California, and particularly bounded and described as follows, to-wit:

Beginning at a point formed by the intersection of the northerly line of Armour Avenue with the center line of San Bruno Road; thence northerly along the center line of San Bruno Road to the northerly boundary line of the City of South San Francisco; thence northeasterly along said northerly line of said City of South San Francisco, produced, 163.83 feet; thence southerly and parallel to the easterly line of San Bruno Road 569 feet; thence easterly parallel to the northerly boundary line of Butler Road to the westerly boundary line of the right of way of the Southern Pacific Railroad Company; thence southerly along the westerly boundary line of the right of way of the Southern Pacific Railroad Company 250 feet; thence westerly and parallel to the southerly boundary line of said Butler Road to a point in a line perpendicular to the easterly line of San Bruno Road, which point is at a distance of 100 feet easterly from said easterly boundary line of San Bruno Road; thence southerly and parallel to the easterly boundary line of San Bruno Road to the northerly boundary line of Armour Avenue; thence westerly along the northerly boundary line of Armour Avenue to the point of beginning.

Saving, excepting, and excluding from said district all public streets, avenues, lanes, alleys, courts, and places included and contained.

The Superintendent of Streets shall cause to be conspicuously posted along the line of said contemplated work or improvement and along all the open streets within said district and in front of all property liable to be assessed at not more than Three Hundred (300) feet apart, but not less than three (3) feet apart, notices of the passage of this resolution of intention, in the manner and form required by the "Improvement Act of 1911," and the amendments thereto.

Notice is hereby given that on Monday, the 1st day of October, 1917, at the hour of eight o'clock p. m. in the Council Chamber of said Board of Trustees of the City of South San Francisco, any and all persons having any objections to the proposed work or improvement may appear before said Board of Trustees and show cause why said proposed improvement should not be carried out in accordance with this resolution.

"The Enterprise," a weekly newspaper, printed and circulated in said City of South San Francisco, is hereby designated as the newspaper in which this Resolution of Intention shall be published, and the Clerk is hereby directed to cause this Resolution of Intention to be published by two (2) insertions in the manner and form required by law.

All of the hereinafter proposed work shall be done in pursuance of an act of the Legislature of the State of California, designated as the "Improvement Act of 1911," approved April 7, 1911, and the amendments thereto.

I hereby certify that the foregoing resolution was regularly introduced and adopted by the Board of Trustees of the City of South San Francisco this 11th day of September, 1917, by the following vote:

Ayes, Trustees F. A. Cunningham, G. W. Holston, George H. Wallace and J. H. Kelley.

Noes, Trustees none.

Absent, Trustee M. F. Healy.

Attest: [Seal] WILLIAM J. SMITH, City Clerk.

COUNTY NEWS IN BRIEF

Chronicle of Peninsula Events for Week

WILL RUN AGAIN.

Congressman Everis Anson Hayes, who has represented the eighth congressional district for many years, is to be a candidate for re-election, according to word emanating from San Jose, near which the palatial home of the congressman is located at Edenvale. Hayes has been at his home from Washington for several months, suffering from a general breakdown resultant of the strenuous days of the first war sessions of Congress. Hayes voted against the war resolution against Germany.

Hayes and his wife recently were injured in an automobile accident near their home.

SEVENTEEN INJURED.

Seventeen persons were injured, none believed seriously, at 12:30 Monday morning, when a Peninsula Rapid Transit bus crashed into a municipal railway car at the intersection of Eleventh and Mission streets in San Francisco. Flying glass cut most of the passengers, who were on their way to way points between the metropolis and Burlingame.

HONOR COUNTY BANKER.

Secretary of the Treasury McAdoo has named A. P. Giannini, president of the Bank of Italy, which has fourteen branches throughout the state a member of the Liberty Loan Advisory Council which is to serve under James K. Lynch, governor of the Federal Reserve Bank in San Francisco. Giannini has accepted the appointment. He is a resident of San Mateo, where the Bank of Italy has a branch.

CONCRETE BOATS.

Work on the frame structures for the concrete ships at the experimental plant which has been erected in Redwood City has begun in earnest, more than twelve carpenters being placed on the job. Just as soon as the two frames are completed the concrete will be mixed and poured. It is believed that the first concrete boat will be completed within the next thirty-five days.

\$25,000 S. P. SUIT.

A damage suit has been filed in the superior court by Alice Ericson against the Southern Pacific Company, for the sum of \$25,000. The plaintiff is the widow of Eric Ericson, who was killed in the Bay Shore yards of the Southern Pacific Company on August 14, 1917. According to the complaint, Ericson, who was but 24 years of age, was employed by the railroad company as a switchman, and was crushed to death while engaged in coupling cars in the yards of the company, when the cars were suddenly set in motion without any warning being given.

Besides the widow there is one minor child.

\$50 BOOZE FINE.

William H. McGregor, a rancher of Hickman, a small town near Modesto, was arrested in Redwood City Friday night by Night Officer Sylvester Douglas on a charge of furnishing liquor to soldiers. He pleaded guilty in City Recorder Mansfield's court and was fined \$50. McGregor claimed to have no knowledge of the law making it a crime to furnish soldiers booze.

LIVELY DIVORCE SUIT.

Rose Marie Lively of Daly City has filed suit in the superior court against George Martin Lively for divorce on the grounds of extreme cruelty. The complaint states that Lively is a steamfitter and earns \$36 per week, and the plaintiff asks that she be granted \$50 per month alimony and \$150 counsel fees, as well as the custody of the minor child.

A previous suit for divorce on the grounds of extreme cruelty and failure to provide was started by Mrs. Lively on July 27, 1916, but was dropped on November 17, 1916, after the husband had promised to be good.

DR. JORDAN'S SPEECH.

Much interest is being manifested in the coming to San Mateo of David Starr Jordan, former chancellor of Stanford University. He will deliver an address in the Congregational church Sunday evening at 7:45 o'clock. His subject will be "The Present Temperance Situation."

George W. Dickie will introduce the speaker.

As the seating capacity of the church is limited, those planning to attend would do well to come early. All seats free.

STRIKE SIGNAL IGNORED.

The taxi drivers of Burlingame threatened to strike Wednesday afternoon at 4:51 o'clock, when the first southbound commuters' train of the afternoon pulled into Burlingame station. A demand was made on the Burlingame Auto Service Company, operated by William C. McCune, and the Bakewell Taxi Service, owned by Thomas Hughes. It was the scheme of the taximen to tie up the service at the critical time when a large number of the elite patrons of the taxi companies return to their country homes. But when the train pulled in the taxi boys were on their job, shouting out their services with their usual gusto.

According to the demands submitted to Thomas Hughes and William McCune, the drivers demanded a raise to \$3 per day for twelve hours, two days off each month on pay and 35 cents an hour overtime.

The drivers recently formed an association in Burlingame and became affiliated with the taxi drivers of America, according to the demand made.

AUTO TRUCK PROBLEM.

An interview with Traffic Officer M. F. Brown of San Mateo relative to the proposal that auto trucks invading this county with parties be under restriction, was published in the automobile section of the San Francisco Examiner on Sunday. Officer Brown cites many instances which have resulted in embarrassment and damage because of the utter recklessness of the revelers in these joy-riding trucks. He states that bottles thrown on the highway by the revelers have resulted in damaging cars, and that the throwing of things at passing autoists caused one wealthy San Francisco woman to come near losing her eyesight several days ago. Brown is not hostile to the lover of the outdoors, nor to the user of San Mateo county's superb highways, but he is anxious that a way be pointed out through which the activities of those riding in the trucks, and the operation of the trucks, be restricted so the average party of that sort is not of the irresponsible kind.

BOMB SCARE HEROES.

A jitney driver Wednesday who met the 2 o'clock train at Redwood City station, was given a check for a suitcase by Roy Curran, assistant manager of the Peninsula branch of the California Pacific Title Insurance Company, and instructed to deliver it to his home, 1032 Broadway, Redwood City.

The bus driver got the street number confused. He tried to deliver the suitcase to a school teacher on Broadway.

"It may contain a bomb. It doesn't belong to me," said the teacher.

The bus driver reported to Justice of the Peace Seely, and said that a "mysterious stranger," who "was nervous, and his hair is nearly red," gave him the order to deliver the suitcase.

"He's a dynamiter," said Seely, in his most judicial manner, as he placed his ear against the suitcase.

After due deliberation, the justice of the peace became convinced that the suitcase contained high explosives, and ordered it then buried in the backyard of his house. Investigation followed. Seely communicated with the Peninsula authorities, and

MAKING TOWN FARMERS TO LESSEN FOOD COST

National Emergency Food Garden Commission to Create a Million More Gardens.

When the school and home gardening movements started in the United States a score of years ago few persons foresaw that some day this miniature farming of urban lots might prove of great economic benefit to the entire population. Up to the present the movement has been fostered as a social service—to give boys and girls habits of industry and to afford to dwellers in congested districts enjoyable, healthful and profitable occupation in their leisure, with incidental aid in beautifying cities and towns by cleaning up the back yards and vacant lots.

The present food crisis, which may become more acute in the event of a serious war, seems to have brought the day in which the idle lands within American municipalities are likely to become an important source of food supply. So seriously is the matter regarded that a number of well known educators and philanthropists have organized in Washington the national emergency food garden commission, devoted to the purpose of putting 1,000,000 men, women and children on city and town gardens this spring to raise vegetables for their families.

Charles Lathrop Pack, president of the American Forestry association, is the originator of the movement and the head of it. With him are associated among others Dr. Charles W. Elliot of Cambridge, Mass.; John Grier Hibben, president of Princeton university; Carl Vrooman, assistant secretary of Agriculture; Capt. J. B. White, member of the United States shipping board; Albert W. Shaw, editor of System magazine; Emerson McMillin of New York, John Hays Hammond of New York, Fairfax Harrison of Virginia, Luther Burbank of California and Hon. James Wilson, former secretary of agriculture.

The plan adopted by the commission is first to create garden volunteers by making the dwellers in cities and towns realize the danger in the food situation this year and then to give these volunteers daily instruction in gardening from the sprouting of seeds in hotbeds to the harvesting of the ripe crops.

The ambition of the commission to create 1,000,000 new gardeners is conservative. The bureau of education estimates that there are 6,000,000 school children capable of cultivating garden yards, while within our cities and towns there is probably an equal number of adults who have the leisure for such work.

got on the trail. He motored to 1032 Broadway, the home of the Currans.

"Where's my suitcase?" asked Curran.

The bus driver replied that it was buried.

"Then unbury it," ordered Curran, and this was done immediately.

Housewives Not Responsible For Food Waste In America

By Mrs. HENRY WADE ROGERS, Treasurer National American Suffrage Association

MASCULINE psychology is getting all out of joint on the subject of waste. There are other avenues of waste besides the home, yet all the hue and cry continues along one line. What we need is a far-reaching investigation into the ways of the food manipulation and A REORGANIZATION OF FOOD DISTRIBUTION METHODS.

It has become a popular thing to scold women and threaten them with the bogey of possible starvation unless they put their families on a bread and water diet. From a dutiful, inoffensive soul, striving to stretch last year's income over this year's inflated cost of living, the housekeeper, that hapless victim of masculine condemnation, has been dragged from the shelter of the cook stove and thrust into the limelight as a reckless spendthrift, who wastes as she goes.

As a matter of fact, in the United States only 20 per cent of the food crop ultimately reaches the kitchen.

BY FAR THE GREATER AMOUNT IS DIVERTED TO OTHER USES, WASTES IN GARDENS AND ORCHARDS, OR IS LOST THROUGH SPECULATION AND INEQUITABLE DISTRIBUTION.

Nation Must Guard Against Currency Inflation and Maintain Standard of Values

By A. BARTON HEPBURN, Chairman Currency Commission, American Bankers' Association

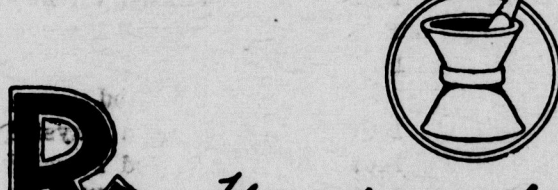

WE may well rejoice over the splendid success of the liberty loan, and also we may ask ourselves as to the future. Our government, in each and every department, is engaged in an earnest and whole souled effort to carry on the war in the best and most efficient way.

They are entitled to the commendation of all good people, and I am sure will secure the most cordial support. Friendly and sympathetic criticism, or, rather, caution, may be helpful and may be heeded when given in that spirit. The greatest danger that confronts us as a nation in the immediate future IS CURRENCY INFLATION AND THE CONSEQUENT UNSETTLING OF VALUES.

Of course this will be avoided by our government.

The United States is the one first class nation of the earth whose credit is unquestioned. Credits come to us freely from all countries in the confident belief that they can at any time withdraw the same in any form which the creditor may desire.

THIS PROUD PRE-EMINENCE SHOULD BE MAINTAINED IF WE WOULD GUARD THE WELFARE OF OUR PEOPLE.

Use pure drugs only at all times. We can furnish them.

A Warning to Sick People

If you are ill you probably need medicine, prescribed by a doctor. Nature must be assisted. But only pure medicines can help nature. We carry that kind. Especially at this time, when the war has prevented the importation of certain drugs, you must be sure that you buy pure drugs. Our reputation cannot be questioned in this respect.

ment to the crowds. There will be no delay in arranging these, for it is planned to have everything ready and in its place when the door swings open and the first visitors are admitted October 13th.

Postmaster Charles W. Fay of San Francisco will put two competent clerks in charge of the Land Show station, and mail may be addressed and will be delivered there from the day of the opening to the close.

Special quarters are being provided for the livestock and poultry exhibitions, and F. M. Pickering, chairman of the first-named feature, with his list of well-known breeders, promises a display of blooded cattle and other stock which will eclipse anything yet shown.

Yolo is the latest county to reserve space, and in the thousand square feet requested there will be placed a banner display of raisins, fresh fruits and dairy products.

One of the feature entries of the livestock show to be held at the Land Show will be the blue-ribboned short-horns owned by Leon F. Douglass of San Rafael. The cattle owned by Mr. Douglass have won many prizes and will, no doubt, attract much attention at the forthcoming exhibition.

George Wight, secretary of the Chamber of Commerce, was in San Francisco Monday, September 10th, conferring with Edward H. Brown, general manager of the California Land Show, for the Santa Barbara county exhibit. Santa Barbara will be assisted by the chambers of commerce, according to Mr. Wight, of Lompoc, Santa Maria, Carpinteria and Summerland in assembling an exhibit of rare flora, shrubs and fruit trees. The fifteen hundred square feet of space will be devoted to an exhibit, as well, of citrus fruits, English and French walnuts and lima beans. There will be three Santa Barbara day celebrations. Yellow and green will be the colors employed in the decorations, and the entrance will have slender cypress trees in yellow bands for its chief motif.

WANT TANFORAN RECRUITS.

gomery street has been closed and recruiting in future will be done at camp headquarters, Tanforan.

Dr. E. Whitney Martin, who for ten years directed the crack Stanford military band and is acting temporarily as bandmaster of the regiment, has sent out a call for musical recruits. He has twenty pieces and wants thirty-six.

He particularly needs four clarinets, two slide trombones, two cornets, one bass, two drum and two saxophone players.

HIGH COLLECTIONS FOR STATE TREASURY

Interest collections on state deposits reached high-water mark last month when State Treasurer Friend W. Richardson turned into the treasury \$23,313.39. This is an increase of nearly four thousand dollars per month, or over forty thousand dollars per year, over collections on a similar total in former administrations. This big increase is due to the policy inaugurated by Richardson of gradually increasing the state rate of interest. The increase alone will pay the entire expense of running the state treasury and leave a big surplus over. When Richardson took office many depositors were paying only 2 per cent, the minimum amount provided by law. Now all depositors are paying from 2½ to 3 per cent.
